Subject: Ban pesticide use permanently

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

To Whom it May Concern,

Please consider banning pesticides in creeks and flood basins. There are alternatives available that will help control bugs without harming our fish and ocean life. We are so fortunate to live in such a beautiful and ecologically rich area - let's be good stewards of this place and care for it as it deserves.

Best,

Anneke Gambina.
