ATTACHMENT A: SCOPE OF WORK**I. INTRODUCTION**

OC Public Works, on behalf of the County and District, requires supplemental professional services to meet workload demands and project scheduling commitments in relation to Architect/Engineer (A-E) Design, Project Administration and Management Services for various projects on an “as-needed” basis. A-E is defined as an Architect or Engineer for design and/or engineering of a project. No specified amount of work is guaranteed to A-E.

II. GENERAL DESCRIPTION OF SERVICES

The A-E will be contacted by County Project Management staff on an “as-needed” basis as projects arise to provide A-E for professional services. Requirements will be discussed by both Parties and A-E shall prepare a written *Scope Statement* that will include the specific work to be performed, including the costs and time required to complete the project/task. Orange County Project Management staff will then review the A-E’s *Scope Statement*, proceed with negotiation of task costs and when satisfied, issue a Contract Task Order (CTO) against this Contract.

The A-E shall restrict themselves to the *Scope Statement* of the Contract Task Order. Any changes in the *Scope Statement* shall require prior written authorization by County.

III. CONTRACT TASK ORDER

A-E shall be assigned work via a task order by County which shall subsequently be referred to as the “Contract Task Order” (hereinafter “CTO”). A CTO for each project shall be developed by A-E in conjunction with County Project Manager. The County Project Manager shall manage all A-E’s work including monitoring the CTO work schedule, quality of deliverables, review of invoiced amounts, adherence to set budget, and internal review of submittal packages. A-E shall follow all requirements as outlined in the CTO; this general Scope of Work, the project specific *Scope Statement*, and the Architect-Engineer Guide (Rev July 2018).

The CTO shall include a detailed *Scope Statement*, describing tasks to be performed with a specific list of deliverables for each task, schedule of work and cost to complete the work. The schedule of work shall allow enough time for meetings with County Project Manager or delegated staff to review the work progress, provide technical and policy direction, resolve problems and ensure adherence to the work completion schedule. The CTO shall include a cover sheet provided by County Project Manager with the appropriate signature blocks and contract information. Once both Parties agree, and all Parties have signed the CTO, County Project Manager shall provide A-E with a Notice to Proceed (NTP) to begin work. A-E shall submit all plans, reports and other documents produced under the CTO to the assigned County Project Manager within the timeframe indicated in the CTO or as directed by County Project Manager. The A-E shall also provide a monthly project status memorandum to the County Project Manager, which will include spend to date by task, as well as projected spend/schedule updates.

A. INDIVIDUAL PROJECT SCHEDULE OF TASKS

A-E will be assigned project tasks by County Project Manager. Some of the project tasks to be assigned include the preparation of environmental documentation and preparation/processing of the necessary regulatory permits, waivers or certifications required for the project’s environmental permits, and compliance reports. Project tasks also include meetings with Project Manager to review the work progress, provide direction, resolve issues and ensure adherence to the work completion schedule. Within five (5) working days of each meeting required by County or District, A-E shall submit a memorandum summarizing the results of the meeting to Project Manager for concurrence and provide a project schedule for completion of the tasks to be performed. The following outline provides typical tasks to be accomplished:

1. Project Manager will provide A-E with a description of the project with mapping of the limits, sketch of the proposed construction or maintenance work, project cost estimate and location map, as necessary.
2. A-E will visit the site to determine the project's environmental parameters such as the probable extent of CEQA documentation, level of biological survey required and, if necessary, scope of mitigation to be required. A-E will notify the Project Manager of the day and time of the field visit prior to its occurrence, in the event the Project Manager chooses to have someone present.
3. A-E shall prepare environmental checklist and, if necessary, initial study and submit to OC Public Works/Development Services/Planning for review. If a Mitigated Negative Declaration (MND) is required, A-E shall prepare the MND and submit to the Project Manager to arrange for review, approval and public posting.
4. A-E shall prepare and submit to County all necessary regulatory permit/agreement applications for the project. The applications shall include, if necessary, a Habitat Mitigation and Monitoring Plan (HMMP) and Long-Term Protection and Management Plan (LTPMP).
5. A-E shall coordinate and be available for meetings with County representatives and the regulatory agencies to respond to comments, discuss terms for mitigation or other project issues as needed.
6. A-E shall perform biological resources monitoring during construction upon request by the Project Manager to ensure compliance with state and federal agency permit and/or agreement conditions in consultation with the OC Public Works. A summary of monitoring results may be requested as an email, technical memorandum or formal report.
7. A-E shall perform tasks other than those noted above that may be required to secure the required project regulatory permits and ensure compliance with the permits and/or HMMP.
8. A-E shall provide all electronic data files, such as (GIS .shp) files upon completion of project.

IV. SCOPE OF WORK – REGULATORY PERMITTING & RESTORATION SERVICES

The services requested consist of the preparation of environmental permit applications, supporting documentation, and/or follow up submittals as determined appropriate by Project Management Staff. These services include, but are not limited to:
