RE: Agenda Item S10A, Phaseout of herbicide use – Support

Dear Chair Chaffee and Members of the Board of Supervisors:

Endangered Habitats League (EHL) endorses this well-considered initiative for County departments to phase out routine herbicide use in view of public health issues and the availability of alternative measures. For your reference, EHL is a Southern California regional conservation group dedicated to ecosystem protection and sustainable land use. We have worked with the County since 1991, beginning with the Central-Coastal Natural Community Conservation Plan.

The phase out process is thoughtful, scientific, and deliberative, with room for exceptions. Please vote to proceed along this path, with health of the environment and the citizens in mind.

Yours truly,
Dan Silver, MD
