Prior Board Action: 5/20/2025 #7, 5/21/2024 #9, 5/23/2023 #5, 4/12/2022 #5		

RECOMMENDED ACTION(S):

1. Adopt a Resolution to certify mileage of the maintained streets and highways within the County Road System pursuant to Streets and Highways Code Section 2121.
2. Authorize the Director of OC Public Works or designee to submit records of certified miles maintained to the California Department of Transportation

SUMMARY:

Adoption of a Resolution to certify the total qualified mileage of maintained County of Orange roads as of May 19, 2026, pursuant to Streets and Highways Code Section 2121, will meet California State Controller requirements for future allocations of the Highway Users Tax to the County of Orange.

BACKGROUND INFORMATION:

A portion of the State of California’s (State) Highway Users Tax (HUT) distribution to individual jurisdictions is based on the number of centerline miles of maintained roads in each county in the State. Section 2121 of the Streets and Highways Code (SHC) requires that every county submit an annual report to the California State Controller tabulating the additions, deletions and modifications to its mileage of maintained county streets and highways. In addition to the submission of tabulations and maps, adoption of a Resolution by the Board of Supervisors (Board) is required to certify the documentation of maintained mileage.

The Board has previously adopted Resolutions certifying mileage of maintained streets and highways within the unincorporated area of Orange County on May 20, 2025; May 21, 2024; May 23, 2023; April 12, 2022; and September 15, 2020.

The updates to the certification of total maintained miles that is part of this Board action represent changes that have occurred between May 20, 2025, and May 19, 2026. As of May 19, 2026, the annual mileage of the County-maintained streets and highways, which includes highways, streets and alleys, has experienced additions of 0.79 miles, modifications of (0.00) miles, and deletions of (0.00) miles for a net increase of 0.79 miles, for a new total of 342.01 miles.

The additions include Tracts 19163 and 19025 encompassing streets within Rancho Mission Viejo accepted road segments that includes Ivy Way, Williams Way, Saddle Way and Pablo Way. Road segments that were recently added were considered to meet eligibility certification requirements per Chapter 18 of the State Local Assistance Procedures Manual (Attachment G). The following summary details the revisions to the mileage from May 20, 2025, to May 19, 2026:

Total Additions	0.79
Total Modifications	(0.00)
Total Deletions	(0.00)
Total May 19, 2026, Net Change (Net Increase)	0.79
Total County Maintained Road Mileage as of May 20, 2025	341.22
Total May 19, 2026, Net Change (Net Increase)	0.79
Total County Maintained Road Mileage of May 19, 2026	342.01

Compliance with CEQA: This action is not a project within the meaning of CEQA Guidelines Section 15378 and is therefore not subject to CEQA since it does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment. The approval of this agenda item does not commit the County to a definite course of action in regard to a project since it only certifies the qualified mileage of maintained streets and highways within the unincorporated area of the County that will support appropriate future allocations of the HUT to the County. This proposed activity is therefore not subject to CEQA. Any future action connected to this approval that constitutes a project will be reviewed for compliance with CEQA.
