The signature of one person alone is sufficient to bind a corporation, as long as he or she holds corporate offices in each of the two categories described above. For County purposes, proof of such dual office holding will be satisfied by having the individual sign the instrument twice, each time indicating his or her office that qualifies under the above described provision.*

In the alternative, a single corporate signature is acceptable when accompanied by a corporate resolution demonstrating the legal authority of the signature to bind the company.

Axon provides all training materials for successful training and assists the agency's trainers in creating the course and training schedule.

SCHEDULE:

The training plan contains an agreed-upon schedule that makes efficient use of time and resources to avoid undue staffing impacts on the agency.

- ▷ Training sessions provided by Axon are conducted during normal business hours (9am-6pm).
- ▷ Training sessions required past the agreed-upon schedule in the training plan, regardless of delivery method, are the responsibility of the agency.

2.5 GO - LIVE

Axon works in partnership with the agency to build, coordinate, and execute a Go-Live plan to ensure successful system acceptance. Axon coordinates the Go-Live event.

3. GIS

3.1 OVERVIEW

Axon Records uses a multi-tenant Axon-hosted ArcGIS Enterprise instance in combination with Esri Online for GIS functions within Records. This infrastructure meets our customers' stringent requirements for high availability GIS data in mission-critical uses. Axon Records supports the following GIS functions:

- ▶ Address suggestions - validated address suggestions are offered to the user when typing in an address.
- ▶ Address validation and geocoding - validation of an address against Esri data and geocoding the location
- ▶ Reverse Geocoding - taking geographic coordinates of a location and converting to a text-based address for the location.
- ▶ Common Names and Street Aliases - agencies can define common names or aliases for locations, which, when entered, will be geocoded to the corresponding address and coordinates
- ▶ Annotations Feature Layers - Agencies can supply their own feature layer(s) for custom annotations (e.g. Districts, Beats, Zones). Annotations are retrieved from the shapefile based on the coordinates of an address and stored as part of location data in Axon Records.

In the event that Esri basemap and data set is not sufficient, and the agency has their own GIS provider, Axon Records can also integrate with a third-party hosted composite locator via REST APIs. All the above GIS features and information must be provided by the locator and meet Axon's requirements, data contract, and availability SLAs.

4. PROJECT MANAGEMENT

4.1 MANAGEMENT RESOURCES

Both parties assign a project manager to ensure completion of deliverables.

4.2 REQUIREMENTS PLANNING

All project requirements are documented during the kick-off and discovery phases of the project.

Once the agency and Axon agree on all requirements, Axon's project manager works with the agency's project manager to develop a project plan for Axon's implementation.

4.3 CHANGE CONTROL

If any changes in the project cause a material increase or decrease in fees, as determined by Axon, an adjustment in the fees will be agreed upon between the agency and Axon. All PCO forms must be approved and signed by the agency authority ([Attachment B](#)).

The agency acknowledges a proposed change request might have an impact on both scheduling and cost for the project that will be outlined in the PCO form.

4.4 MILESTONE COMPLETION REPORT (MCR)

Axon will submit an MCR to the agency for approval upon completion of the project. Milestone Completion Report included ([Attachment A](#)).

Upon receiving an MCR, the agency has 7 calendar days to approve the milestone completion. If the agency reasonably believes Axon did not complete the milestone in substantial conformance with this SoW, the agency must notify Axon in writing of the specific reasons for rejection within seven (7) calendar days from delivery of the MCR. Axon will address the issues and re-present the MCR for signature. If Axon does not receive the signed MCR or written notification of reasons for rejection within seven (7) calendar days of delivery of the MCR, Axon will deem the agency to have accepted the milestone.

5. AGENCY COMMITMENTS

- ▶ Ensure the reasonable availability for meetings, phone or email of knowledgeable staff and personnel to provide timely and accurate documentation and information to Axon.
- ▶ Identify holidays, non-workdays, or major events that may impact the project.
- ▶ Ensure agency desktop, mobile systems, and devices can access the product.
- ▶ Make available relevant systems if needed for assessment by Axon (including making these systems available to Axon via remote access, if possible).
- ▶ Provide Axon with remote access to the agency's Axon Evidence account when required.
- ▶ Provide Axon with all CJIS background check requirements at project initiation.
- ▶ Actively participate in requirements validation and complete this process within five days of the request.

6. SUPPORT

- ▶ Axon provides updates and enhancements to the product, which the agency automatically receives. Some features require the agency to notify support, so please review our monthly release notes.
- ▶ Axon provides the agency's end users with access to the help.axon.com support portal for self-service support.
- ▶ Following final acceptance, the agency utilizes Axon support via my.axon.com and the support portal for any further modifications to the product.
- ▶ For urgent technical support assistance, the agency may contact a technical support representative at 800-978-2737. Phone support is available 24/7.

7. TERMS AND CONDITIONS

This statement acknowledges that the implementation cost of Axon Standards for the Orange County Sheriff's Department (OCSD) is \$30,000. However, Axon agrees to waive this implementation fee under the condition that OCSD continues to collaborate with Axon in developing a finalized Statement of Work (SOW) for an Axon Records Management System (RMS) deployment.

The finalized RMS SOW will be completed and signed by both parties on or before October 31, 2025. OCSD agrees to facilitate both virtual and in-person meetings as necessary to finalize the details of the RMS SOW. Furthermore, OCSD acknowledges that the RMS deployment will include professional services costs, which will be determined as part of the final SOW. The total cost and payment schedule for these services will be mutually agreed upon by both parties as part of the finalized agreement.

By proceeding under this understanding, both OCSD and Axon affirm their commitment to continued collaboration in successfully implementing Axon RMS.

This SOW is governed by MA-060-21011432, Amendment Number One, and any subsequent amendments. This document serves as Amendment Number Two to MA-060-21011432.

The signature of one person alone is sufficient to bind a corporation, as long as he or she holds corporate offices in each of the two categories described above. For County purposes, proof of such dual office holding will be satisfied by having the individual sign the instrument twice, each time indicating his or her office that qualifies under the above described provision.

In the alternative, a single corporate signature is acceptable when accompanied by a corporate resolution demonstrating the legal authority of the signature to bind the company.

In the event County terminates this Contract without cause, Contractor shall promptly refund any amounts prepaid by County for services not yet rendered as of the date of termination. Cause shall be defined as any material breach of contract, any misrepresentation or fraud on the part of the Contractor. Notwithstanding the foregoing, the County may terminate this Contract immediately upon: (a) Contractor's failure to maintain the insurance required under this Contract; (b) a federal or state proceeding for relief of debtors is undertaken by or against Contractor; (c) Contractor's assignment for the benefit of creditors; (d) assignment of the performance or administration of this Contract, or any portion thereof, without the express written consent of County; or (e) Contractor's engagement in any dishonest conduct related to the performance or administration of this Contract, violation of the law, or violation of County's ordinances, regulations or policies relating to lobbying. - 3) The provisions of California Civil Code Section 2860 shall apply to any and all actions to which the duty to defend stated above applies, and the Contractor's SIR provision shall be interpreted as though the Contractor was an insurer and the County was the insured.
