BACKGROUND INFORMATION:

The El Dorado High School Girls' Basketball Program provides young women with opportunities to develop as athletes, students, and leaders through participation in team sports. The program emphasizes discipline, teamwork, and resilience while helping student-athletes build skills that extend beyond the basketball court. As a booster-funded program, the team relies on community support to provide student-athletes with the resources necessary to compete and succeed. The requested funding will support the purchase of practice apparel, warm-ups, team uniforms, basketballs, training equipment, and other necessary gear. Funds will also help support strength and conditioning activities and team-building sessions designed to promote player development, injury prevention, and team unity. The proposed allocation will help ensure that student-athletes have access to the equipment and resources needed for a successful season while demonstrating the County's commitment to youth development, educational opportunities, and community-based athletics.
