Subject: Emails from Residents regarding Dana Point Harbor redevelopment (Item 18, 8/25/26 BOS Meeting and Item 31, 8/11/26 BOS meeting)
Attachments: COB_DanaPointPublicComments.pdf

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Dear Hon. Clerk of the Board,

Hope you are well. I have attached emails previously sent by residents regarding the Dana Point Harbor redevelopment lease item. We were concerned yesterday when we learned from Patty in the Clerk of the Board office that these previously sent letters had not been received by the Board. Accordingly we are resending these letters on behalf of these residents in the attached pdf file. Please confirm receipt.

Regards,

Charlie Carnow

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making reasonable proposals in your lease negotiations for the Dana Point Harbor Hotels. I think the developer is being callous and unreasonable. Supervisors suggested the developer look out for employees laid off in the redevelopment. Hotel Online described developer Bob Olson's response: "And, he said retraining the current Marina Inn employees is 'ridiculous' because there are 'so many hospitality jobs in the area that our people will be hired immediately.'" This response completely misunderstands why workers are protesting over the loss of their jobs. If this redevelopment is going to make the developers and the county millions of dollars, why shouldn't workers expect to be given the opportunity to return to these good jobs when the hotels reopen? Why is this "ridiculous"?

Subject: Thank you for advocating for the Dana Point Marina Inn Workers (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for voting to continue the Dana Point Harbor Hotels Lease item to fully consider all the issues presented by the lease. These long-term leases will shape the future of valuable County-owned land. This review provides an important opportunity to protect the workers who have helped make the Marina Inn successful. Last week, labor leaders, clergy and community supporters rallied outside the Dana Point Marina Inn calling on Harbor Developers to protect the jobs of the workers.

Thank you for advocating for the Dana Point Marina Inn workers who would be laid off by this hotel redevelopment.

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Honorable Board of Supervisors,

Thank you for standing up for the residents and workers who have cared for the Dana Point Harbor for decades. Thank you for standing up against the pressure of developers who wanted to rush through a special lease deal for their hotels. You have my support to take your time and get these leases right. Please continue to look out for the resident boaters and the workers who would be laid off by the development.

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making reasonable proposals in your lease negotiations for the Dana Point Harbor Hotels. I think the developer is being callous and unreasonable. Supervisors suggested the developer look out for employees laid off in the redevelopment. Hotel Online described developer Bob Olson's response: "And, he said retraining the current Marina Inn employees is 'ridiculous' because there are 'so many hospitality jobs in the area that our people will be hired immediately.'" This response completely misunderstands why workers are protesting over the loss of their jobs. If this redevelopment is going to make the developers and the county millions of dollars, why shouldn't workers expect to be given the opportunity to return to these good jobs when the hotels reopen? Why is this "ridiculous"?

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Honorable Board of Supervisors,

Thank you for standing up for the residents and workers who have cared for the Dana Point Harbor for decades. Thank you for standing up against the pressure of developers who wanted to rush through a special lease deal for their hotels. You have my support to take your time and get these leases right. Please continue to look out for the resident boaters and the workers who would be laid off by the development.

Subject: Thank you for advocating for the Dana Point Marina Inn Workers (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for voting to continue the Dana Point Harbor Hotels Lease item to fully consider all the issues presented by the lease. These long-term leases will shape the future of valuable County-owned land. This review provides an important opportunity to protect the workers who have helped make the Marina Inn successful. Last week, labor leaders, clergy and community supporters rallied outside the Dana Point Marina Inn calling on Harbor Developers to protect the jobs of the workers.

Thank you for advocating for the Dana Point Marina Inn workers who would be laid off by this hotel redevelopment.

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Honorable Board of Supervisors,

Thank you for making reasonable proposals in your lease negotiations for the Dana Point Harbor Hotels. I think the developer is being callous and unreasonable. Supervisors suggested the developer look out for employees laid off in the redevelopment. Hotel Online described developer Bob Olson's response: "And, he said retraining the current Marina Inn employees is 'ridiculous' because there are 'so many hospitality jobs in the area that our people will be hired immediately.'" This response completely misunderstands why workers are protesting over the loss of their jobs. If this redevelopment is going to make the developers and the county millions of dollars, why shouldn't workers expect to be given the opportunity to return to these good jobs when the hotels reopen? Why is this "ridiculous"?

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Subject: Thank you for standing up for residents and workers at the Dana Point Harbor (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for standing up for the residents and workers who have cared for the Dana Point Harbor for decades. Thank you for standing up against the pressure of developers who wanted to rush through a special lease deal for their hotels. You have our support to take your time and get these leases right. Please continue to look out for the resident boaters and the workers who would be laid off by the development. As a boat owner who thought my retirement years would be fulfilled by sailing on my CAT 320 along the Dana Point waters, I have found that as the fees continually rise 10 % each year, or more, It will be unable to fulfill my dream. So many of us boat owners who have supported the harbor for years(myself/ 50 years of support) are now finding that we will need to leave. It is a travesty that the Harbor developers continue to price gauge us because they never had their own money to build the harbor in the first place, as they previously promised.

Subject: Thank you for advocating for the Dana Point Marina Inn Workers (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for voting to continue the Dana Point Harbor Hotels Lease item to fully consider all the issues presented by the lease. These long-term leases will shape the future of valuable County-owned land. This review provides an important opportunity to protect the workers who have helped make the Marina Inn successful. Last week, labor leaders, clergy and community supporters rallied outside the Dana Point Marina Inn calling on Harbor Developers to protect the jobs of the workers.

Thank you for advocating for the Dana Point Marina Inn workers who would be laid off by this hotel redevelopment.

Honorable Board of Supervisors,

Thank you for making reasonable proposals in your lease negotiations for the Dana Point Harbor Hotels. I think the developer is being callous and unreasonable. Supervisors suggested the developer look out for employees laid off in the redevelopment. Hotel Online described developer Bob Olson's response: "And, he said retraining the current Marina Inn employees is 'ridiculous' because there are 'so many hospitality jobs in the area that our people will be hired immediately.'" This response completely misunderstands why workers are protesting over the loss of their jobs. If this redevelopment is going to make the developers and the county millions of dollars, why shouldn't workers expect to be given the opportunity to return to these good jobs when the hotels reopen? Why is this "ridiculous"?

These long-term leases will shape the future of valuable County-owned land. This review provides an important opportunity to protect the workers who have helped make the Marina Inn successful. Last week, labor leaders, clergy and community supporters rallied outside the Dana Point Marina Inn calling on Harbor Developers to protect the jobs of the workers.

Thank you for advocating for the Dana Point Marina Inn workers who would be laid off by this hotel redevelopment.

Honorable Board of Supervisors,

Thank you for standing up for the residents and workers who have cared for the Dana Point Harbor for decades. Thank you for standing up against the pressure of developers who wanted to rush through a special lease deal for their hotels. You have our support to take your time and get these leases right. Please continue to look out for the resident boaters and the workers who would be laid off by the development.

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making reasonable proposals in your lease negotiations for the Dana Point Harbor Hotels. I think the developer is being callous and unreasonable. Supervisors suggested the developer look out for employees laid off in the redevelopment. Hotel Online described developer Bob Olson's response: "And, he said retraining the current Marina Inn employees is 'ridiculous' because there are 'so many hospitality jobs in the area that our people will be hired immediately.'" This response completely misunderstands why workers are protesting over the loss of their jobs. If this redevelopment is going to make the developers and the county millions of dollars, why shouldn't workers expect to be given the opportunity to return to these good jobs when the hotels reopen? Why is this "ridiculous"?

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

So much damage has been done to the charm of Dana Point through this so-called "revitalization of the harbor". Every single local resident that I have spoken to is disgusted by what has happened to our harbor. All of the local businesses that have been there for decades are no longer going to be there- this is not something we ever signed on for. And now this so-called hotel deal is trying to be rammed through?? While I'm glad the Board of Supervisors is finally standing up to the money hungry greedy developers it's a little a little too late. When we said don't Newport our Dana - we meant it. I for one am joining other local residents and boycotting this harbor destruction and annihilation of local businesses.

I do thank you for at the very least making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, for the environment, and not the developers. It's the least you can do after what's been done to our beautiful charming Harbour which only needed a little facelift and not complete destruction.

Sincerely, Mary Patrice

Subject: Thank you for advocating for the Dana Point Marina Inn Workers (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for voting to continue the Dana Point Harbor Hotels Lease item to fully consider all the issues presented by the lease. These long-term leases will shape the future of valuable County-owned land. This review provides an important opportunity to protect the workers who have helped make the Marina Inn successful. Last week, labor leaders, clergy and community supporters rallied outside the Dana Point Marina Inn calling on Harbor Developers to protect the jobs of the workers.

Thank you for advocating for the Dana Point Marina Inn workers who would be laid off by this hotel redevelopment.

Also, our family (5 legal voters) never voted for this renovation on public property. If the county would have maintained the buildings in the harbor, we would never be here today. We would never be faced with losing all the local businesses that have providing the local economy with jobs for the last 40 plus years. The voters in this town will always remember the renovation of the harbor as a money grab.

Signed,

Melody Smith and the Smith family (locals to Dana Point for 50 years!)

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Honorable Board of Supervisors,

Thank you for standing up for the residents and workers who have cared for the Dana Point Harbor for decades. Thank you for standing up against the pressure of developers who wanted to rush through a special lease deal for their hotels. You have our support to take your time and get these leases right. Please continue to look out for the resident boaters and the workers who would be laid off by the development.

Subject: Thank you for advocating for the Dana Point Marina Inn Workers (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for voting to continue the Dana Point Harbor Hotels Lease item to fully consider all the issues presented by the lease. These long-term leases will shape the future of valuable County-owned land. This review provides an important opportunity to protect the workers who have helped make the Marina Inn successful. Last week, labor leaders, clergy and community supporters rallied outside the Dana Point Marina Inn calling on Harbor Developers to protect the jobs of the workers.

Thank you for advocating for the Dana Point Marina Inn workers who would be laid off by this hotel redevelopment.

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Dear Honorable Board of Supervisors,

Please find this letter sent on behalf of the Orange County Working Families Party. We urge you to support the workers at the Dana Point Marina Inn, whose jobs are at risk as Harbor hotel developers push forward with redevelopment of the County-owned Dana Point Harbor.

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels.

When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land.

The OC Working Families Party stands firm in our belief that selling off our public land to developers would spell disastrous consequences not only for workers but for regular, everyday people across Orange County. We encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Regards,
Orange County Working Families Party Steering Committee

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making reasonable proposals in your lease negotiations for the Dana Point Harbor Hotels. I think the developer is being callous and unreasonable. Supervisors suggested the developer look out for employees laid off in the redevelopment. Hotel Online described developer Bob Olson's response: "And, he said retraining the current Marina Inn employees is 'ridiculous' because there are 'so many hospitality jobs in the area that our people will be hired immediately.'" This response completely misunderstands why workers are protesting over the loss of their jobs. If this redevelopment is going to make the developers and the county millions of dollars, why shouldn't workers expect to be given the opportunity to return to these good jobs when the hotels reopen? Why is this "ridiculous"?

We need to consider things before just moving quickly just because there's land to be developed. Doesn't mean we should and just because there's facelifts and upgrades that need to be done. Doesn't mean I need to bring in ultra high-end restaurants and hotels that will push out the younger generations that are trying to buy in here as the baby boomer generation will eventually move out or naturally complete their time here on earth but that being said we need to consider what makes Dana Point Dana Point. What makes Dana Point so quaint is the fact that it is a small town and it doesn't have transplants that come in with tons of money and buy a properties and open up businesses that most people can't afford. We don't need high-end restaurants. We already have enough nice restaurants on PCH as it is leave the harbor alone and let Newport Beach stay in North Orange County. We don't need another Newport Beach in Dana Point.

Honorable Board of Supervisors,

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Subject: Thank you for standing up for residents and workers at the Dana Point Harbor (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for standing up for the residents and workers who have cared for the Dana Point Harbor for decades. Thank you for standing up against the pressure of developers who wanted to rush through a special lease deal for their hotels. You have our support to take your time and get these leases right. Please continue to look out for the resident boaters and the workers who would be laid off by the development.

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making reasonable proposals in your lease negotiations for the Dana Point Harbor Hotels. I think the developer is being callous and unreasonable. Supervisors suggested the developer look out for employees laid off in the redevelopment. Hotel Online described developer Bob Olson's response: "And, he said retraining the current Marina Inn employees is 'ridiculous' because there are 'so many hospitality jobs in the area that our people will be hired immediately.'" This response completely misunderstands why workers are protesting over the loss of their jobs. If this redevelopment is going to make the developers and the county millions of dollars, why shouldn't workers expect to be given the opportunity to return to these good jobs when the hotels reopen? Why is this "ridiculous"?

Thank you for making reasonable proposals in your lease negotiations for the Dana Point Harbor Hotels. I think the developer is being callous and unreasonable. Supervisors suggested the developer look out for employees laid off in the redevelopment. Hotel Online described developer Bob Olson's response: "And, he said retraining the current Marina Inn employees is 'ridiculous' because there are 'so many hospitality jobs in the area that our people will be hired immediately.'" This response completely misunderstands why workers are protesting over the loss of their jobs. If this redevelopment is going to make the developers and the county millions of dollars, why shouldn't workers expect to be given the opportunity to return to these good jobs when the hotels reopen? Why is this "ridiculous"?

Subject: Thank you for listening to residents and workers, not developers in Dana Point (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for making sure the developers of the Dana Point Harbor Hotels take care of the workers who will be displaced by the redevelopment of the hotels. When developers don't take responsibility for displaced workers, it falls to taxpayers who pay for unemployment, health care, and anti-poverty programs. If lease negotiations for public, taxpayer owned land get rushed or pressured by developers without careful review, it makes it harder to make sure taxpayers are getting the best deal for their land. One conservative newspaper editorial board even suggested that public land should be sold off to developers! I think that selling off our public land to developers is a terrible idea, and I encourage you to continue to fight for the best possible deal for taxpayers, not the developers.

Honorable Board of Supervisors,

Thank you for standing up for the residents and workers who have cared for the Dana Point Harbor for decades. Thank you for standing up against the pressure of developers who wanted to rush through a special lease deal for their hotels. You have my support to take your time and get these leases right. Please continue to look out for the resident boaters and the workers who would be laid off by the development.

Subject: Thank you for advocating for the Dana Point Marina Inn Workers (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

Thank you for voting to continue the Dana Point Harbor Hotels Lease item to fully consider all the issues presented by the lease. These long-term leases will shape the future of valuable County-owned land. This review provides an important opportunity to protect the workers who have helped make the Marina Inn successful. Last week, labor leaders, clergy and community supporters rallied outside the Dana Point Marina Inn calling on Harbor Developers to protect the jobs of the workers.

Thank you for advocating for the Dana Point Marina Inn workers who would be laid off by this hotel redevelopment.

Subject: Thank you for standing up for residents and workers at the Dana Point Harbor (Item 31, 8/11/26 BOS Meeting)

Honorable Board of Supervisors,

I have lived here in Dana Point for for 35 years and this redevelopment of our humble harbor seems to be a “big opportunity” for these developers and I have witnessed my next door neighbors HAVE to sell their boat because of the jacked up fees! Very sad for them after keeping their boat in the harbor for 40 years!! I wish we had our original harbor back! Thank you for standing up for the residents and workers who have cared for the Dana Point Harbor for decades. Thank you for standing up against the pressure of developers who wanted to rush through a special lease deal for their hotels. You have our support to take your time and get these leases right. Please continue to look out for the resident boaters and the workers who would be laid off by the development.
