Dear OC Board of Supervisors,

My name is Thao. I am a community member from District #1 and a proud member of ACT.

Housing and homelessness are important to me because I have faced housing insecurity due to the high rent in Orange County. That experience was difficult, and I had to rely on friends for housing. I am asking you to devote more discretionary funds towards supporting those who are housing insecure. I also urge you to collaborate with CBOs who are trusted members of the community to develop actionable steps in supporting the community member's needs, and to support legislation that ensures protection of health care and economic security for all constituents of Orange County.

There should be no discussion as to whom the recovered stolen money should be returned....the first district, of course. Only an idiot would think otherwise! The thief stole from us ergo that \$\$\$ should be returned to this district! Why is there even a discussion of this matter!???

Orange County Board of Supervisors:

Please vote to return all stolen funds to the First District since that is the community for which those funds were originally earmarked.

Thank you for considering this request

Subject: First District Recovered Funds

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Dear Members of the Orange County Board of Supervisors,

I respectfully urge the Board to return the recovered \$3.7 million to the First District.

These funds were intended to serve First District residents and should be restored to the community that was deprived of them. The money was diverted through the actions of former Supervisor Andrew Do, who used his position to fraudulently direct funds away from their intended public purpose and toward organizations that benefited members of his own family. As a result, First District residents were the ones who lost out on resources that should have supported their communities.

Supervisor Janet Nguyen has worked tirelessly to bring attention to this issue and advocate for the return of these funds to the people who were originally meant to benefit from them. Her position is both logical and equitable. First District residents should not be forced to bear the consequences of losing these funds.

The residents of the First District were the victims of this misuse of public funds. Returning the recovered money to the First District is the most equitable outcome and demonstrates accountability to the taxpayers who were affected.

I urge you to support Supervisor Nguyen's effort and ensure these recovered funds are invested back into the First District where they belong.

Thank you for your consideration.

Sincerely,

Trisha Murphy
