Dear Board of Supervisors,

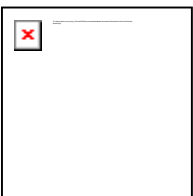

My name is Ricky. I am a community organizer with Ahri Center and we are located in Buena Park and our org is a proud member of the ACT coalition .

Public health is important to me because many of my loved ones live with chronic illnesses and have only been able to afford care through public health programs and direct healthcare services. I am asking you to allocate funding for these programs so that communities facing barriers to care can continue to have this critical safety net. These services give people hope and the opportunity to stay healthy during a time of uncertainty and fear. At the very least, people could manage their physical pain while they put the anxieties of our administration to rest day by day.

Please continue investing in the healthcare resources that so many Orange County residents depend on.

Thank you for your consideration.

Warm Regards,

Ricardo Perez
